

timeware Reports Installation Guide

www.timeware.org

1

Selecting a report...

- Go to www.timeware.org and select the report page.
- Download the desired report and save in your documents folder

Placing the report in the timeware report folder...

2

- Copy the downloaded report from your document folder into the timeware Professional 2010 report folder.

This default path is: program files/timeware professional 2010/tdata/reports

- The next time you run timeware, the new report will appear in the list on the left side of the screen. Drag the new report to the right side and place in the correct folder. Finally change the properties of the report as required.
